

**China Everbright Ltd. was ranked the 5th amongst
Zero2IPO's "2014 China LP Top 10"**

On 22 June 2015 - **China Everbright Limited** ("CEL", Stock Code: 165.HK) was ranked 5th amongst "2014 China LP Top 10" of the "Zero2IPO - 2015 China Private Equity Investment Market Limited Partner Annual Ranking" at the "9th China Limited Partners Summit" in Hangzhou. The Summit was organised by the Zero2IPO Group – a renowned integrated service agency in venture capital and private equity investment in China.

The private equity investment industry in China has gone through more than 20 years of development. As of the end of 2014, there were more than 8,000 active investment institutions in this industry, managing more than RMB 4 trillion of assets. CEL can still sustain its position in such a competitive market and demonstrate its remarkable strength in fundraising, investment and project management.

Since 2001, Zero2IPO Group has initiated the "China Venture Capital Private Equity Annual Ranking" for Chinese venture capitals. The ranking's independence, impartiality and objectivity has aroused much attention and recognition from the industry. It provided an important reference for institutional fund-raising and investment. This year, the "Zero2IPO - 2015 China Private Equity Investment Market Limited Partner Annual Ranking" is based on an integrated survey on aspects such as fundraising, investment and management, etc. The reference system for the ranking includes indicators such as the investable capital for China, additional investable capital for the current period, cumulative number of venture capital ("VC")/ private equity ("PE") funds and investment amount, additional number of VC/ PE funds and investment amounts for the current period. Moreover, the ranking index will be adjusted annually according to the actual development, so as to strive for reflecting the current situation of Chinese government guidance fund, China private equity Fund of Funds ("FOFs") and the investment development of institutional Limited Partners ("LP"). Zero2IPO Group hoped that the industry can have a better understanding of government guidance fund, FOFs and the development of other institutional LP, while strengthening the co-operation and exchange between LP and VC/ PE institutions, so as to foster the future development of the Chinese equity investment industry.
